

Md Ashiqur Rahman

✉ rahman79@purdue.edu • 🏠 <https://ashiq24.github.io/> • Google Scholar

Research Interest

Designing robust and physically grounded AI systems, spanning geometric and scale-equivariant deep learning, generative models and neural operators for scientific computing, and vision-language models for robust perception and reasoning.

Education

Purdue University **West Lafayette, IN**
Doctor of Philosophy in Computer Science 2021–

Advisor: Raymond A. Yeh

[Awarded Bilsland Dissertation Fellowship \(2026–2027\)](#)

Highly competitive, nomination-based fellowship for top final-year PhD candidates (1–2 per department).

Purdue University **West Lafayette, IN**
Master of Science in Computer Science 2021–2025

Bangladesh University of Engg & Tech **Dhaka, Bangladesh**
Bachelor of Science in Computer Science and Engineering 2015–2019

Advisor: Md. Shamsuzzoha Bayzid

Professional Employment

Purdue University **West Lafayette, IN**
Graduate Assistant in the Department of Computer Science 2021–present

Eli Lilly **Indianapolis, IN**
Research Intern Summer 2026

Advanced Intelligence Team

- Developed an edge-deployed agentic-vision system for monitoring pharmaceutical manufacturing.

Autodesk **San Francisco, CA**
Research Intern Summer 2025

Manager: Robert Giaquint

- Investigated the reliability of VLMs for 3D CAD model generation for engineering.

NVIDIA **Santa Clara, CA**
Research Intern Summer & Fall 2023

Manager: Anima Anandkumar

- Worked on large-scale weather prediction and foundation models for scientific computing.

United International University **Dhaka Bangladesh**
Lecturer in the Department of Computer Science 2019–2021

Awards & Recognition

- Bilsland Dissertation Fellowship** 2026–2027
 - Competitive nomination-based fellowship for top final-year PhD candidates (1–2 per department).
- ACCESS Discover Project Award** 2026-2027
 - Awarded 150,000 computing credits (~\$10K–15K equivalent) in national cyberinfrastructure resources to support scientific discovery.

Teaching Experience

Purdue University
Teaching Assistant - CS587: Foundations of Deep Learning

West Lafayette, IN
Spring 2024

- Co-designed and graded course assignments and exam questions involving equivariant models, optimizing deep neural networks, generative models, and optimization layers.

Purdue University

West Lafayette, IN

Teaching Assistant - CS373: Data Mining and Machine Learning

Fall 2022, Spring 2023

- Co-designed course assignments and exam questions involving fundamentals of machine learning, perceptron, SVM, learning theory, and data privacy.

Purdue University

West Lafayette, IN

Teaching Assistant - CS334: Fundamentals of Computer Graphics

Fall 2021, Fall 2023

- Co-designed course assignments and exam questions involving GPU programming, ray tracing, texture mapping, and procedural modeling.

United International University

Dhaka, Bangladesh.

Lecturer

2019 - 2021

- Redesigned and instructed courses, including Data Structures and Algorithms, Simulation and Modeling, Intro to Computer Graphics, and Computer Networking.

Services

Professional Service

Conference Reviewer:

- Neural Information Processing Systems
- International Conference on Machine Learning
- International Conference on Learning Representations
- Computer Vision and Pattern Recognition,

Journal Reviewer:

- IET Computer Vision
- IEEE Transactions on Neural Networks and Learning Systems

Research with Undergraduates

Michael Cheng

Undergraduate, Purdue, Fall 2024 – Fall 2025. Conducting undergraduate research under the supervision of **Professor Raymond A. Yeh**. As a mentor, I receive weekly updates, provide feedback, set project directions, and offer hands-on guidance in project development and implementation.

Research topic: Equivariant machine learning for computer vision.

Changxiang Gao

Undergraduate, Purdue, Summer 2024 – Fall 2024. Conducted undergraduate research under the supervision of **Professor Raymond A. Yeh**. As a mentor, I received weekly updates, defined project goals, and provided hands-on guidance for implementation.

Research topic: Any-resolution image classification.

Anugu Arun Reddy

Visiting Scholar, Purdue, Summer 2024 under the supervision of **Professor Aniket Bera**. As a mentor, I defined the project scope, received weekly updates, and guided the implementation process.

Research topic: Human motion generation.
